

become part of its FERC Gas Tariff, First Revised Volume No. 1-A and Second Revised Volume No. 1, the revised tariff sheets listed on Appendix A to the filing, with a proposed effective date of October 9, 1995.

PGT states that the proposed revised tariff sheets establish initial rates for service on PGT's Medford and Coyote Springs, Oregon Extensions as certificated by the Commission. PGT states that it is also submitting an undated system map reflecting the addition of the Medford and Coyote Springs Extensions.

PGT further states that a copy of the filing has been served upon the official service list established by the Secretary in this proceeding.

PGT requests waiver of the Commission's regulations to allow the proposed revised tariff sheet to become effective October 9, 1995.

Any person desiring to protest the subject filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests should be filed on or before October 20, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and available for public inspection.

Lois D. Cashell,
Secretary.

BILLING CODE 6717-01-M

[Docket No. CP93-618-007]

Pacific Gas Transmission Co.; Notice of Change in Rates

October 13, 1995.

Take notice that on October 4, 1995, Pacific Gas Transmission Company (PGT) tendered for filing to become part of its FERC Gas Tariff, First Revised Volume No. 1-A, the following revised tariff sheet, with a proposed effective date of October 9, 1995.

Sub. Ninth Revised Sheet No. 4

PGT states that the revised tariff sheets modifies the initial rates for firm service PGT's Medford and Coyote Springs, Oregon Extensions by applying the Gas Research Institute Adjustment to the Reservation Charge for Medford and Coyote Springs Extension shippers. The Adjustment was omitted from

PGT's September 26, 1995 compliance filing.

PGT further states that a copy of the filing has been served upon the official service list established by the Secretary in this proceeding.

PGT requests waiver of the Commission's regulations to allow the proposed revised tariff sheet to become effective October 9, 1995, consistent with its September 26, 1995 compliance filing.

Any person desiring to protest the subject filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests should be filed on or before October 20, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and available for public inspection.

Lois D. Cashell,
Secretary.

BILLING CODE 6717-01-M

[Docket No. CP96-15-000]

Texas Eastern Transmission Corporation; Notice of Application

October 13, 1995.

Take notice that on October 10, 1995, Texas Eastern Transmission Corporation (Texas Eastern), 5400 Westheimer Court, P.O. Box 1642, Houston, Texas 77251-1642, filed in Docket No. CP96-15-000 an abbreviated application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon in place certain inactive facilities located in the states of Pennsylvania, West Virginia and Ohio which were authorized in Docket Nos. G-880¹ and G-1003,² all as more fully set forth in the application on file with the Commission and open to public inspection.

Texas Eastern proposes to abandon: (i) approximately 25 miles of 24-inch diameter Line No. 1, located between Texas Eastern's Waynesburg Compressor Station in Greene County, Pennsylvania and Texas Eastern's Waynesburg Compressor Station in Greene County, Pennsylvania and Texas Eastern's Uniontown Compressor

Station in Fayette County, Pennsylvania; (ii) approximately 120 miles of 20-inch diameter Line No. 2, located between Texas Eastern's Somerset Compressor Station in Perry County, Ohio and Texas Eastern's Waynesburg Compressor Station in Greene County, Pennsylvania; and (iii) Texas Eastern's Wind Ridge Compressor Station located in Greene County, Pennsylvania.

Texas Eastern states that the facilities proposed to be abandoned have already been removed from active service and will not have any effect on its existing natural gas services, tariffs or rate schedules.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 3, 1995, file with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Texas Eastern to appear or be represented at the hearing.

Lois D. Cashell,
Secretary.

[Docket No. CP96-16-000]

Transcontinental Gas Pipe Line Corporation; Notice of Application

October 13, 1995.

Take notice that on October 10, 1995, Transcontinental Gas Pipe Line Corporation (Transco) P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP96-16-000 an application, pursuant to Section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity for (1) authorization to construct and operate certain pipeline facilities on Transco's mainline pipeline system in order to create additional firm transportation capacity, extending from Transco's production area in Louisiana to the vicinity of the border between North Carolina and South Carolina (designated as the SunBelt Expansion Project) and (2) approval of incremental initial rates for the firm transportation service to be rendered through such incremental firm transportation capacity, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Transco states that the SunBelt Expansion Project is an incremental expansion of Transco's mainline in its Southeastern market area which will provide the dekatherm equivalent of 145,666 Mcf per day (Mcf/d) of additional firm transportation capacity. Transco proposes an in-service date of November 1, 1997. Transco states that the incremental capacity will provide access to two of Transco's major supply areas; 100,001 Mcf/d of the capacity will commence at Transco's Station 65 in St. Helena Parish, Louisiana and 45,665 Mcf/d will commence at Station No. 85, which is at the point of interconnection between Transco's mainline and its Mobile Bay Lateral near Butler, Alabama. The incremental capacity will extend to points of delivery in the vicinity of Transco's Station No. 145 near the North Carolina and South Carolina border.

Transco states that the firm transportation service under the SunBelt Expansion Project will be rendered pursuant to Rate Schedule FT of Transco's FERC Gas Tariff. Transco proposes initial rates designed on a straight fixed-variable rate design methodology and an incremental cost of service designed to recover the cost of the proposed facilities.

In order to expand system capacity, Transco proposes to construct and operate the following facilities:

(1) A 15,000 Horsepower (HP) compressor addition at Transco's Station 80 in Jones and Jasper Counties, Mississippi.

(2) Modifications to existing compressor equipment at Transco's Station 100 in Chilton County, Alabama to eliminate or modify current air permit restrictions, thereby allowing increased annual operating hours and resulting in an uprate of 900 HP.

(3) A 15,000 HP compressor installation at a proposed new compressor station (Station 105) in Coosa County, Alabama.

(4) Modifications to existing compressor equipment at Transco's Station 110 in Randolph County, Alabama to eliminate or modify current air permit restrictions, thereby allowing increased annual operating hours and resulting in an uprate of 2,400 HP.

(5) A 15,000 HP compressor installation at a proposed new compressor station (Station 125) in Walton County, Georgia.

(6) Modifications to existing compressor equipment at Transco's Station 130 in Madison County, Georgia to eliminate or modify current air permit restrictions, thereby allowing increased annual operating hours and resulting in an uprate of 2,400 HP.

(7) Modifications to existing compressor equipment at Transco's Station 140 in Spartanburg County, South Carolina to eliminate or modify current air permit restrictions, thereby allowing increased annual operating hours and resulting in an uprate of 2,400 HP.

(8) 14.92 miles of 42-inch Mainline "D" pipeline loop between Stations 140 and 145, beginning at milepost 1222.66 and ending at milepost 1237.58 in Cherokee County, South Carolina.

Transco estimates that the project will cost \$84,995,849, which will be financed initially through short-term loans and funds on hand, with permanent financing to be undertaken at a later date.

Transco proposes to charge a monthly reservation rate of \$13.20 per Mcf for firm transportation services from Station 65 to shipper delivery points and \$10.20 per Mcf for transportation from Station 85 to shipper delivery points. Transco indicates that SunBelt Expansion Project shippers will also be charged the electric power unit rate, fuel retention factor, ACA and GRI and any other applicable charges under Rate Schedule FT. It is noted that the electric power unit rate and fuel retention will vary depending on the location of each shipper's receipt and delivery points.

Transco states that it has executed precedent agreements with ten shippers which assure that all of the incremental firm capacity will be subscribed on a firm basis for 20-year initial terms.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 3, 1995, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211)

and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Transco to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.
